

South West Manufacturing Advisory Service invites you to:

FREE Workshops for manufacturers

Improving Your Manufacturing Operation

- For any business, the key to success is to understand and meet customer needs
- For manufacturers, the challenge is also how to get more from existing investments in plant, machinery and people without spending more on new resources

Introduction to Lean Manufacturing Workshop

will help you to understand proven techniques that lead to quantifiable improvements in customer service, production capacity and financial performance.

Find out how small operational changes, can make a huge difference.

This workshop will help you identify and implement improvements through:

- **Practical demonstrations of lean manufacturing tools**
- **Identification of the 7 types of waste found in manufacturing, eg over-production and excess inventory**
- **Shop floor layout: identification and improvement techniques**
- **Showing how reducing batch sizes adds to manufacturing flexibility**
- **Applying the concepts within your own business**

Comments

from our workshops:

"Good informative session that drives improvements and highlights the need to do so." Mr Tim Hill, Manufacturing Manager, Redler Ltd

"Workshop is a great help to SMEs like us. We gain the knowledge, the new concepts and information with limited resource." Yi Sun, Manufacturing Engineer, Owen Barry
